

The **ELFBAR BC5000 Disposable Vape** is a compact [vaping device](#) designed for adult users who prefer convenience and a simple, ready-to-use format. Offering a 20MG nicotine strength and a claimed capacity of up to 5000 puffs, it provides an easy option for those looking for a portable disposable vape in Dubai.

Simple Ready-to-Use Design

The ELFBAR BC5000 is designed with simplicity in mind. Its draw-activated operation means there are no complicated buttons or settings to adjust. Users can simply inhale to activate the device, making it suitable for those who prefer an uncomplicated vaping experience.

Portable for Everyday Use

Featuring a compact and lightweight design, the BC5000 can be conveniently carried in a pocket or small bag. Its portable construction makes it practical for everyday use while traveling around Dubai or during other daily activities.

20MG Nicotine Strength

The BC5000 comes with a **20MG nicotine strength**, providing a consistent nicotine option for adult users. It is available in different flavor choices, allowing users to select a taste that matches their preferences.

Up to 5000 Puffs

The device is advertised with **up to 5000 puffs**, [offering extended](#) usage in a disposable format. The actual number of puffs may vary depending on individual usage habits, including puff duration and frequency.

A Convenient Disposable Option

For adult users seeking a straightforward vaping device, the ELFBAR BC5000 brings together portability, simple activation, multiple flavor options, and an extended advertised puff capacity. Its disposable format eliminates the need for coil changes and other routine device maintenance.
